

# Euro-150TE Flexy

Programmable keyboard

Replaceable button labels

Long battery life

Meets law requirements

## Ergonomic cash register

## CONNECTIVITY OPTIONS FOR EXTERNAL DEVICES

USB and RS-232 provide connection of:

- Cash drawer
- Bar code scanners
- Digital weight
- Payment terminal
- External keyboard

## INTUITIVE AND CONVENIENT COMMUNICATION

Robust and large keypad is fully programmable with the ability to replace button labels for maximum customization even for the most demanding business needs. Connecting to a PC via USB and LAN makes it easy to communicate and work with data that can be also stored on an SD card.

## DISPLAY FOR BOTH CUSTOMER AND ACCOUNTANT

The two-line billing display provides better insight by showing the item and the price in two separate lines. Thanks to a large customer display, the digits are big and readable. Both displays are illuminated in blue.

## FAST PRINT AND TAPE CHANGE

Thermal printing is faster, quieter, more reliable and cheaper than dot matrix printing with the lifespan up to 25 times longer than standard printers. Modern drop-in system, notable for its simplicity and speed of changing the paper tape reduces downtime when changing.
